The 4th European Congress on Controversies in Leukemias
20-21 November 2023 | Brussels, Belgium

www.euroleuk2023.com
Dear Colleague,

It is with great pleasure that we invite you to join us in person at The 4th European Congress on Controversies in Leukemia (Euroleuk2023) which will take place 20-21 November 2023 in Brussels, Belgium.

The diagnosis and treatment of acute and chronic leukemia are changing dramatically. In recent years, numerous new drugs have entered the market, changing the prognosis of leukemia patients. In this context, a continuous exchange among peers, together with the opportunity to hear the most important news from the voices of Europe’s leading key opinion leaders, is essential to ensure the best level of care for leukemia patients.

The all-new format will feature debate-style presentations on hot topics in acute and chronic leukemia, with speakers presenting contrasting views to stimulate interactive discussion with faculty and attendees.

Euroleuk2023 will continue to provide clinicians and biologists with the latest recommendations for patient care, as well as insights into controversies and new therapeutic perspectives in the field.

We look forward to welcoming you to Euroleuk2023 in the charming city of Brussels!

Congress Chair
Alessandro Isidori, MD, PhD,
Hematology and Stem Cell Transplant Center
Marche Nord Hospital – Pesaro – Italy
Scientific Committee

Thomas Cluzeau
Centre Hospitalier Universitaire de Nice (CHU de Nice), France
